A TIME FOR NEW INSIGHTS INTO DIVERTICULAR DISEASE

MAY 31st, 2022 - MILANO

PRESIDENT OF THE EVENT:

Dr. Dario Maggioni

Mini Invasive Colorectal Unit Desio Hospital

Under the patronage of

Sistema Socio Sanitario

Regione Lombardia
ASST Brianza

h 9.00 Introduction

Maggioni D. (Desio)
Pugliese R. (Milano)

Session 1

Diverticular disease - biological features.

Chairman: Montroni I. (Faenza)

h 9.00	Histo-pathological feature of diverticular disease.	Hawkins A.T. (Nashville)
h 09.10	Microbiome, diverticular disease and colonic cancer.	Artale S. (Gallarate)
h 09.20	Chronic diverticular disease and IBS, two sides of the same coin?	Grass F. (Losanna)
h 09.30	Chronic diverticulitis and immunology: a new fascinating scenario.	Mari G. (Desio)
h 09.40	Diverticular disease: indication for elective surgery.	Fingerhut A. (Paris)
h 9.50-10.10	Round table and panel discussion.	

h 10.10 Coffee Break

Session 2

New clinical trends in diverticular disease management.

Chairman: Mari G. (Desio)

h 10.40	Diverticulitis: An Update from the age-old paradigm.	Hawkins A.T. (Nashville)
h 11.00	CT colonoscopy to predict recurrent diverticulitis.	Achilli P. (Milano)
h 11.10	Uncomplicated diverticular disease, more complicated than we thought.	Larson D.W. (Rochester)
h 11.20	Trans-mural colonic abscess: the reason for medical treatment failure.	Crippa J. (Rozzano)
h 11.30-11.50	Round table and panel discussion.	

Focus: Acute Diverticulitis in the real life

Chairman: Hawkins A.T. (Nashville)

h 11.50	How far can we push the conservative treatment of perforated diverticulitis.	Ugolini G. (Ravenna)
h 12.00	Emergency surgery for acute complicated DD. The WSES classification.	Ansaloni L. (Pavia)
h 12.10	Is an Hartmann procedure the only solution?	Wolthuis A. (Leuven)
h 12.20-12.40	Round table and panel discussion.	

h 12.40 Lunch

Session 3

The surgeon as a tailor in diverticular disease.

Chairman: Ugolini G. (Ravenna)

h 14.00	Surgical steps for a textbook sigmoidectomy for DD.	Spinelli A. (Rozzano)
h 14.10	When close bowel resection is a valid option?	Wolthuis A. (Leuven)
h 14.20	The dilemma of IMA ligation during sigmoidectomy for DD.	Cirocchi R. (Terni)
h 14.30	Round table and surgical panel: Which level of IMA ligation? Always lowering the splenic flexure? Spinelli A. (Rozzano), Wolthuis A. (Leuven), Larson D.W. (Rochester), Boni L. (Milano), Grass F. (Losanna), Hawkins A.T. (Nashville)	
h 15.00	Robotic surgery for diverticular disease.	Larson D.W. (Rochester)
h 15.10	ICG in surgery for DD.	Boni L. (Milano)

Focus: Clinical outcomes

Chairman: Wolthuis A. (Leuven)

h 15.30	Do we really know the rate of recurrent diverticulitis after elective surgery?	Montroni I. (Faenza)
h 15.40	Quality of life and elective surgery for DD.	Costanzi A. (Merate)
h 15.50	Diverticular disease registries. A new weapon in our armamentarium.	Scatizzi M. (Firenze)
h 16.00-16.20	Round table and panel discussion.	

h 16.20 Coffee Break

h 16.30 Challenging surgical scenarios - video session

Chairman: Grass F. (Losanna)

Spinelli A. (Rozzano), Coccozza E. (Varese), Wolthuis A. (Leuven), Larson D.W. (Rochester), Boni L. (Milano), Grass F. (Losanna), Hawkins A.T. (Nashville), Montroni I. (Faenza), Costanzi A. (Merate), Mari G. (Desio).

h 17.00	Conclusions	Maggioni D. (Desio)
